

Features

- 37X High Resolution WDR PTZ Dome Camera with Built-in Housing

- The SPU-3750T PTZ Dome camera comes with a built-in housing and 37X optical zoom. This premium camera allows accurate monitoring with Intelligent Auto Tracking and forms crystal clear images day and night with a high 550TV lines resolution and ultra low light levels of 0.7Lux.

- Powerful 444X Zoom

The built-in auto focus zoom in the SPU-3750T offers 37X optical (3.5 ~ 129.5mm) to capture distant objects clearly, with a combined optical/digital zoom up to 444X for broad area monitoring.

- Ultra-Low Light Levels of 0.7Lux

The SPU-3750T's ICR Day & Night capabilities provide optimal video quality day or night, and the ultra-low light level 0.7Lux ensures clear object recognition in complete darkness.

- WDR Backlight Compensation

The more powerful 128X WDR (Wide Dynamic Range) with pixel image analysis provides a crystal clear view of backlit objects and places under direct sunlight, making these cameras well suited for building entrances, as well as airport and terminal lobbies.

- Built-in Housing & IP66-Rated

The SPU-3750T camera with built-in housing does not require extra housing for installation. It is also IP66-rated for both dust and waterproofing to maintain stable performance both indoors and outdoors.

- 255 Presets & 500 μ s High Speed Pan/Tilt

- Intelligent Auto Tracking

- Coax Communication System
- Various Accessories
